SUBJECT: LITHUANIA SUPPORTS SANCTIONS ON IRAN

REF: SECSTATE 37801

The Ambassador delivered reftel points to MFA Under Secretary Zygimantas Pavilionis on March 26. We followed up with Martynas Lukosevicius, Attache in the MFA's Arms Control, Non-Proliferation and Disarmament Division, who told us that the GOL is "very happy" that sanctions have been strengthened. He expressed hope that stronger sanctions, coupled with firm negotiations, would help convince Iran to suspend its proliferation and enrichment programs. He added that he would update the GOL's website that provides guidelines for export-related companies with the information in the resolution's annexes.
